Helpful Tips for Winterizing Your Home

- **Turn off your water at the meter:** Close the valve after the water meter. By doing this, water will not continuously run if a pipe bursts.
- **Winterize your pipes:** Focus on your outside hose bibs, sprinkler system, and pipes on the outside walls of your home. Drain the water from pipes and add insulation or heat tape.
- **Crawl Spaces:** Insulate your crawl space and add insulation or heat tape to water pipes.
- **Set Thermostats:** Set your thermostat to 55° F. This, in addition to keeping cabinet doors open, will keep pipes warm enough.
- **Have someone check on your home:** Ask a trusted person to keep watch on your home to check for potential problems. Should a problem arise, contact the Water Department immediately to assist in further preventing potential damage.

At Home Leak Detection

Flow Indicator Triangle

This dial spins as water is being used. When a leak is small, it is hard to see the sweep hand move, so this dial helps residents to see small leaks.

Sweep Hand

This hand moves clockwise as water is being used. One full revolution equates to 10 gallons of water usage.

Register

This is the numerical gauge that counts the amount of gallons of water used. It works just like the odometer in a car.

Option 1: Before going to bed, ensure all water using appliances are not running. Write down the numbers on your water meter register. Immediately after waking up, before any water usage, write those numbers down again. If the number has increased, a leak is present.

Option 2: Mark the location of the water meter sweep arm with a piece of tape or another sticky item that will stay in place. Write down the numbers on your register. With all water using appliances off, check your meter periodically to see if the sweep hand moves. If so, a leak is present.

Election Headquarters

The passage of Proposal 2022-2 by Michigan voters in November 2022 brought numerous changes to local elections, and for the clerks who administer them and townships that fund them. Proposal 2 preserved numerous new voter rights within the state constitution, including four key elements highlighted below.

The state Legislature has passed legislation implementing many of the elements of the proposal requirements, and the state Bureau of Elections (BOE) has released guidance, and will continue to do so over the next several months. The Clerk's office is committed to sharing updates as they are available.

Early in-person voting for statewide and federal elections:

- Michigan is now required to offer 9 days of early in-person voting prior to statewide and federal elections only.
- The first election early voting will be in effect is Michigan's 2024 presidential primary, date to be determined.

Prepaid return postage for absent voter (AV) applications and ballots:

- State-funded postage is required for voters to return their AV ballot applications and ballot. With this in mind, AV application and ballots do not require additional postage from a qualified elector.

Permanent AV Ballot List:

- Voters may now complete a single AV application to receive an AV ballot in all future elections, no matter your residence within the State of Michigan. Per the BOE, permanent AV status moves with the voter when a registration address is updated, and remains in Michigan.

Required AV Applications and Ballot Drop-Boxes:

- According to new the new regulations, there must be at least one state-funded AV drop box for every 15,000 registered voters in a jurisdiction, plus an additional drop box for every additional 15,000 registered voters (Public Act 85 of 2023). Therefore, the Township is required to add two additional drop boxes for AV applications and ballot returns. These locations will be announced in an upcoming mailer.

Winter Holiday Safety

Winter holidays are a time for families and friends to get together. But that also means a greater risk for fire. Following a few simple tips will ensure a happy and fire-safe holiday season.

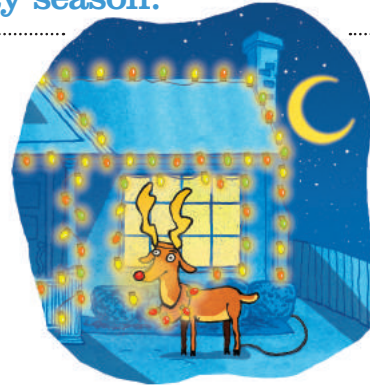

HOLIDAY DECORATING

- Be careful with holiday decorations. Choose decorations that are flame resistant or flame retardant.
- Keep lit candles away from decorations and other things that can burn.
- Some lights are only for indoor or outdoor use, but not both.
- Replace any string of lights with worn or broken cords or loose bulb connections. Read manufacturer's instructions for number of light strands to connect.
- Use clips, not nails, to hang lights so the cords do not get damaged.
- Keep decorations away from windows and doors.

HOLIDAY ENTERTAINING

- Test your smoke alarms and tell guests about your home fire escape plan.
- Keep children and pets away from lit candles.
- Keep matches and lighters up high in a locked cabinet.
- Stay in the kitchen when cooking on the stovetop.
- Ask smokers to smoke outside. Remind smokers to keep their smoking materials with them so young children do not touch them.
- Provide large, deep ashtrays for smokers. Wet cigarette butts with water before discarding.

Before Heading Out or to Bed

Blow out lit candles when you leave the room or go to bed. **Turn off** all light strings and decorations before leaving home or going to bed.

FACTS

- ! More than **one-third** of home decoration fires are started by candles.
- ! More than **two of every five** decoration fires happen because decorations are placed too close to a heat source.
